KILLED SWEETHEART'S FATHER AND BROTHER

Indiana Mans Infatuation for a Young Woman Results in a Double Murder—He is Taken to Indianapolis to Prevent Violence Which is Threatened By the People of Noblesville.

Indianapolis, Ind., Oct. 4.—As a precaution the authorities at Noblesville decided to bring to Indianapolis James Hensley, who killed the father and brother of his sweetheart, last night, near Noblesville. The feeling is running high in Hamilton county and Hensley will be kept here until his trial.

Hensley was divorced from his wife here, but for over a year he has been trying to get Mary

was aware of the penalty for the heinous crime he had confessed and he replied that he was.

Hines is a powerful negro, over six feet in height, and his color is between a tan and a deep black. He has black hair and a short curly amputation, it developed that he could not read writing, but was able to read the newspapers intelligently, and he admitted that he had kept posted on the details of the Cohan-Markowitz crime and knew of the failure of the officers to effect the capture of the guilty man. His sisters and relatives do not believe he is guilty, and his record otherwise has been fair. He was held in esteem among those who knew him. He is possessed of more than the average intelligence considering his schooling. He has a mustache, very large feet and prominent cheek bones. During his ex-

REW IS RESCUED

Nine Men are Taken From Wrecked Leon XIII by a British Warship.

Kilrush, Ireland, Oct. 4.—Nine men, the last of the crew of the ill-fated sailing ship, Leon XIII, which went ashore on the rocks of County Clare, on Wednesday, were taken off the wreck today by the British warship, Arrogant. The men were in that condition of exhaustion which makes it doubtful whether they can recover from their frightful experience. The rest of the twenty-five men on the boat when she struck were rescued yesterday.

Spokane, Washington, Oct. 4.—At Davenport, Washington, last night, an angry mob drove a small party of Hindoos across the line into Canada, sending a shower of missiles after them. A few shots were discharged but none was injured. The Hindoos had found shelter in a cabin at Davenport, following their escape from Canada.

OVER THE VIADUCT

Traction Car Hangs and Twenty People are Saved from Death.

Ashtabula, O., Oct. 4.—With its nose hanging over the viaduct, 100 feet above a gully, an Ashtabula-Pennsylvania car halted barely in time to save twenty passengers from being hurled to death last night.

Dirt was washed onto the viaduct by last night's storm and formed the obstruction which caused the car to jump the track and crash through the railing. It struck a trolley pole and this prevented the plunge that would probably have meant death to the entire party.

BOAT IS DISABLED

President Roosevelt Arrives in Memphis Behind Schedule Time.

Memphis, Tenn., Oct. 4.—The news that the president's boat, Mississippi, was disabled for a time after leaving Cairo has been confirmed. The stop for repairs will delay the fleet's arrival until about 1 p. m.

DOUBLE TRAGEDY

Boy Husband Beats His Girl Wife and Drinks Carbolic Acid.

Dayton, O., Oct. 4.—The low crooning of a baby and the pitiful moaning of a woman brought neighbors to the home of Edward Wilkinson, this morning. The mother, a girl of 19, was found huddled on the floor, unconscious, having been beaten almost to death. In the yard, the dead body of her boy husband, he too only 19, was found. He had swallowed carbolic acid. In the crib the six months' old baby cried softly for its mother. The young couple had often quarreled.

MUTINY IN INDIA MAY BE AT HAND

Students Attack Police and Many Officers are Injured—Speakers Make a Demand for Indian Independence and the Native Press is Loud in its Praise of the Bravery and Patriotism of the Rioters.

Calcutta, British India, Oct. 4.—Coming as a direct result of the prolonged agitation for self rule for India, an uprising by students last night culminating in an assault on the police in which half a hundred officers were injured, has aroused the greatest fear that the long-dreaded Indian mutiny may be at hand. Today a strike by native cab drivers which has already resulted in much violence, has greatly added to the danger. Further rioting is anticipated and many English and other foreign residents of the city are preparing to flee to the ships in the harbor for protection.

The speakers at last night's meeting urged self rule for India and declared that English opposition should be met with force. Today the native newspapers give glowing accounts of the fighting, extolling the bravery and patriotism of the rioters. They boast that 100 casualties resulted among the police.

RUSSIA SUDDENLY CHANGES FRONT

Japan and Great Britain Support Russia Against Germany—The Move Shows Germany's Good Will Toward the Cruise of the American Fleet in the Pacific.

The Hague, Oct. 4.—The circumstances attending the sudden postponement of Thursday's session of the peace conference, at which a vote was to have been taken on the proposition concerning the rights and duties of neutrals in the case of a maritime war, contains factors of vital importance to the whole world.

At the eleventh hour Russia repudiated the most important article in the final draft under the approval of Germany.

Germany has taken her direction showing her active good will toward an encouragement of the American Atlantic fleet's voyage to the Pacific. Its present practical effect is that Russia will be breaking no resolution of this conference if she prefers unlimited recourse to Vladivostok of the American fleet under any eventuality that may arise.

Later Russia tendered a proposal but did not ask for a vote on it. It was this sudden return to the attitude of no interference with neutrals' hospitality to a friendly belligerent that caused the countermanding of yesterday's meeting.

FISH SCORES POINT OVER HARRIMAN

Stock Holders Who Have Given Their Proxies to the Big Magnate Cancel Them and Turn Them Over to a Supporter of Fish—Resolutions Against Harriman are Adopted.

Hartford, Conn., Oct. 4.—At the meeting of the local stockholders of the Illinois Central railroad held at the board of trade rooms here, yesterday, it was unanimously voted to have all the proxies of the stockholders present turned over to Charles M. Beach, of this city, who is a director of the Illinois Central and a supporter of Stayvassant Fish, in the fight with the Harriman interests. Those who have already sent their proxies to Mr. Harriman will cancel them.

S. M. Young, of New York, a representative of Harriman interests, was in the building but did not attend the meeting.

The stockholders represented over 8000 shares. The meeting was overwhelmingly anti-Harriman, and besides voting on the disposition of proxies, adopted resolutions setting forth:

Whereas: The present controversy in the management of the Illinois Central railroad has brought to the knowledge of the stockholders the fact that the board of directors has delegated their powers in intervals of session to an executive committee of their number, which in turn has conferred the same absolute power upon their chairman, which we believe to be a grave danger to the interests of the corporation and of its stockholders, and

Whereas: The fact has become known that by this concentration of authority the officers have been enabled to make large loans to themselves on such securities and terms as they themselves deem sufficient and are the sole judge; and as it also is evident that under this present system it is possible for any individual delegated with these powers to make in his own interests this railroad and its business subordinate and contributory to other roads in which he may have a greater personal interest and therefore, we, stockholders of the Illinois Central railroad, protest against this improper and hazardous practice, and we request the board of directors to take such action as will prevent these evils in the future."

ROOT THE RECIPIENT OF VERY HIGH HONORS

He Attends Special Meeting of the Chamber of Deputies and Addresses That Body—Honorary Membership in Mexican Academy of Jurisprudence Conferred Upon Him.

Mexico City, Oct. 4.—Secretary of State Elihu Root has been the recipient of the highest honors which can be granted to a foreign visitor at the City of Mexico. He was invited to be present at a special meeting of the chamber of deputies convened especially to show the appreciation of the lawmakers of this republic for the distinguished guest of the nation; and in the evening a ball was given at the Jockey club.

Mr. Root visited the chamber of deputies, the legislative body which corresponds to the United States house of representatives.

The entire membership of the house was present and the enthusiasm which greeted the speech of Secretary Root was boundless.

After all routine business was transacted the president of the council, Senor Emanuel Callero, delivered a speech welcoming Mr. Root in the name of the legislature of Mexico.

Mr. Root, in reply, said in part:

"Mr. President and members of the chamber of deputies of the United States of Mexico, I am doubly sensible of the high honor which you have conferred upon me by this audience today. I am sensible also of the great mark of friendship to my country involved in this reception of one of her officers in this distinguished manner by the popular law-making body of this great republic. I sincerely hope not merely that I per-

sonally may never do ought to show myself to have been unworthy of your consideration, but that my country may forever, in its attitude and conduct towards the people of Mexico, justify your kindness.

"You will have gathered from my words which your president has been good enough to quote in the admirable and grateful address which he has just made that I am one of those who believe that the old days when nations sought to enrich themselves by taking away the wealth of others by force ought to pass, and are passing."

Immediately after the session in the chamber of deputies, Mr. Root was whisked to the building of the Mexican academy of jurisprudence and legislation, where another honor was to be conferred on him, that of membership in that body.

After this ceremony was over, Mr. Root had just time enough to drive to the castle of Chapultepec to prepare for the banquet tendered to him by the city of Mexico at the municipal palace at 8 o'clock. This affair was one of the most brilliant events of the series of entertainments in honor of Secretary Root.

Former Assistant Secretary of State Francis B. Loomis arrived in this city and called on Secretary Root at Chapultepec castle. Mr. Loomis was invited to tour the city with the Root party.

DAYTON IS STIRRED BY THE CONFESSION

Perfect Coolness Upon the Part of Negro Hines Leads the Officers to Believe Him—An Effort will be Made to Fasten the Gilman Murder Upon Him.

Dayton, O., Oct. 4.—The arrest and confession of Layton Hines has stirred Dayton as nothing has since the Markowitz murder itself.

"I ravished the girl," he gasped as the corner and prosecutor urged him on to tell the awful tale, "choking her with my right hand, though I did not mean to kill her, poor girl. Yes, I shot her man. I didn't know who he was. It did not make any difference to me then. I was under the control of a passion that I could not master. I shot in the darkness at a fleeing form—three times—holding the revolver in my left hand as I shot and grasping the girl with my right hand. It was an awful thing to do. Now be merciful to me."

Such were the words, but Coroner Schuster declined to give out a verbatim report of the confession, explaining that it would be held for the grand jury, which meets next week, and which it is predicted, will take speedy action.

Hines now languishes in the safest cell in the county jail, but it is not considered probable that any attempt will be made to molest him. The officials promised him every protection, and it was practically upon this promise that the negro screwed up courage enough to make a com-

plete confession.

That he will be "sweated" in the course of time in the hope of ransacking upon him the murder of Dona Gilman, it is not doubted, but the officers decided to go slowly, fearing that a general confession of too many crimes might tend to weaken their case. They are satisfied that Hines is telling the truth, as he made his statement almost voluntarily.

The officers are willing to admit that Hines, though a degenerate of the lowest type, and a man of low mentality, was sufficiently shrewd during the sweating process to crawl out of many interesting situations in which he found himself.

Having found three men who identified him as the man they had seen in the neighborhood of McCabe's park on the night of the crime, August 4 last, the officials believed that they would be justified in holding him.

"Hines was just as cool as he could be," said Prosecutor Nevil, "and he fully realized the enormity of his crime. He came right out and said that he ravished Miss Markowitz and shot Abraham Cohan, and expressed hope the court and officials would be merciful to him."

Prosecutor Nevil asked Hines if he
